ATLANTIC CARE SERVICES

October

NEWSLETTER

Picnic in the Park

On Sunday October 20th from 3 to 6pm we will be having our first ever Atlantic Care Services Picnic in the Park! We invite you and your family to come enjoy a wheelchair accessible park, eat yummy food, play games, and meet fellow members of our Atlantic Care Services community! You can RSVP to Sydney at [269-271-2219](tel:269-271-2219) or sydney@atlanticcareservices.com. We can't wait to see you there!

[Winter Park, FL 32792](#)

Spirit Week 2024

From September 16th through September 20th we had so much fun celebrating another Atlantic Care Services spirit week! Members of our community dressed up to many fun themes including “Out of this World”, “Throwback Tuesday”, “Heroes VS Villains”, and more! Please enjoy some pictures from this fun week below!

Orlando Business Journal

We are thrilled to have been chosen as one of the Best Places to Work by the Orlando Business Journal... again!

Creating a culture where people feel appreciated, heard, and cared for has always been, and will always be, our top priority. Check out the full article on their website!

*Hannah
Walters*

We are so excited to introduce you to Hannah for this month's patient highlight! As you can see in her pictures, Hannah's smile is contagious! She is a very happy girl who loves to smile and talk to people. She loves going to church with her family, listening to music, dancing, and rolling around on her carpet in the evening and in the morning. Hannah also enjoys a lot of attention from people and snuggles. She turned eight years old over the summer and has been with Atlantic Care Services for over a year. We have thoroughly enjoyed getting to know Hannah and her family, and are so thankful to have them as part of our Atlantic family!

*Elizabeth
Colon*

We are pleased to introduce you to our August caregiver of the month, Elizabeth! Our clinical team is so proud of Elizabeth's documentation as her notes are always timely and accurate. She is great at providing real time updates regarding her patient. Elizabeth is described by our team as a hard worker and an overall amazing person! She has been a part of our Atlantic Care team for over two years, and we look forward to working with her for many years to come!

We are pleased to introduce you to another one of our nurses, Kayla! Kayla graduated from the University of Central Florida and Seminole State College in August of 2023.

In her free time Kayla loves baking, gardening, and going to the beach. She also enjoys watching cooking videos or the Food Network. Her favorite color is pink, and she is originally from New York!

Kayla is looking to work day shift, a few days a week, and is available Monday through Friday. She is based in Apopka and able to drive up to 30 minutes from that area. She has a high interest in working with pediatric patients.

If you are interested in setting up a meet and greet with Kayla you can call our main line at 407-270-5501. She is very excited to meet patients and get to work!

The Chain of Infection

The health and safety of our patients, families, and caregivers is always our priority. In preparation for the peak of flu season, we want to highlight the “chain of infection” or ways that infection can spread to others. We hope awareness of these areas can help us all take a proactive approach in preventing illness.

How germs get in - Through the mouth, nostrils, eyes, through cuts in the skin, and other artificial openings into the body.

Tips to keep germs out - Remember to cleanse your hands prior to and after performing any care or skills for your loved one or patient. Cover your sneeze or cough in a tissue or in the inner bend of your elbow, and then wash your hands immediately. Do not pick at healing wounds, avoid squeezing pimples and keep any cuts/scrapes in the skin clean and covered. Do not share dishes, glasses, or eating utensils. Avoid contact with napkins and tissues that have been used by other individuals.

Individuals at risk - Babies, children, elderly, and people with weakened immune systems are at higher risk, however anyone is at risk of infection.

Germs that can cause infection - Bacteria, viruses (influenza, COVID, RSV), fungus, and parasites.

Where germs live - People, household pets/wild animals, food, soil, and water.

How germs get out - Through the mouth (vomit or saliva), nose or tracheostomies (secretions), cuts in the skin (blood), or during diapering or toileting.

How germs move around - Contact (hands, toys, doorknobs, phones, raw food) or droplets (speaking, sneezing, or coughing).

We are passionate about preventing infections within our community so make sure to follow these practices and share this information with others so we can all stay healthy and safe!

Listed below are available shifts for the month of October, for both adults and pediatrics. If you are interested in any of these shifts, please call the office main line at 407-270-5501. Shifts are subject to change and pay rates vary from case to case.
